

# Finley's Fresh Produce

Finley's Fresh Produce is a farm and business owned by John and Chris Finley of Hermiston Oregon. They started by growing a few things in their spare time, while working at other full time jobs. In 2008, John began farming full time and they officially started their business.

After working for many years in large farming operations, John realized an interest in growing crops naturally without the use of pesticides and with a focus on soil and plant nutrition. He decided to start a farming business to produce many types of nutritionally rich fruits and vegetables.

Finley's will provide spinach greens for May's harvest of the month at Walla Walla Public Schools

John and Chris sell their crops directly to consumers through a Community Subscription Agriculture (CSA) program in Hermiston and the Tri-cities as well as the farmer's markets in Hermiston and Pendleton OR. They have also started selling to the Hospitals in Hermiston and Walla Walla for use in their cafeterias. Selling directly allows the Finley's to receive more money per pound of produce than if they sold to a distributor or grocery store.

Finley's are committed to growing great food that tastes good and is good for you. They are also committed to caring for the land in a responsible way that will leave the land healthy and productive for future generations of farmers.
